Dear Jason,

The Epay Manager site continues to improve. When we first were paid through the software, it was very good. Today, with the improvements that you've made, it makes the billing process a breeze. As a large expedited carrier, we deal with many customers and the ease of using Epay has made me realize how much better our collection process would be if all of our customers paid with Epay.

To date, we've received over two million dollars in payments through your software and look forward to receiving many millions more.

Keep up the good work.

Melody Pettrey  
CFO
